# V G R E E T

## product description

Vgreet is a free-standing or recessed video communications kiosk that opens up service in a way that no other product can. It enables deployment of video/audio whilst simultaneously displaying content, not unlike a giant smartphone.

The station uses video conferencing technology, along with content management software, to provide these face-to-face interactive opportunities. Centralised expertise can be delivered to multiple locations.

Vgreet is adaptable and can be tailored to integrate with technologies controlled via third party software solutions.

### HOUSING

Material: Steel  
Panel thickness: 1.5mm  
Panel width: 605mm  
Panel height: 1480mm  
Panel Depth: 155mm  
Standard exterior finish: Black powder coating

### HARDWARE

40" commercial grade LED panel with PCAP touch overlay  
professional microphone with directional pick up

#### PC Specifications:

CPU – i7 – 6700  
Memory – 4GB DDR4 Non EC  
Storage – 128Gb SSD SATA3  
Operation system: Windows Embedded 7 professional 64bit

Residual current device (RCD) mains distribution professional  
loudspeakers and amplifier  
High definition 1080p USB camera

### SOFTWARE

Video conferencing soft client  
Video exchange client  
Content management software  
Operation system: Windows Embedded 7 professional 64bit  
Other applications upon request

### WEIGHT

100kg

### POWER REQUIREMENTS

110-240v 50Hz-60Hz  
SINGLE PHASE  
13 amp

### NETWORK REQUIREMENTS

1x Ethernet connection with a bandwidth of 1mb (up and down load)

### INSTALLATIONS NOTES

Unit can be freestanding or recessed

### PURCHASE OPTIONS

Price on application
